

**LARK CREEK®
RESTAURANT GROUP**

Manager- Fish Story Restaurant, Napa

Fish Story, Downtown Napa's sustainable, seasonal ocean-fresh fish restaurant, on the Napa Riverfront, Main at Third.

We are seeking an experienced manager of the highest caliber.

The successful candidate will be a good trainer and motivator; have experience as a manager in a fine dining environment; should be entrepreneurial and a self-starter but be comfortable working within a structured organization. Strong food and beverage knowledge, business acumen, and organizational skills are required. You must be proficient with common computer systems used in restaurant management (Aloha POS, OpenTable, Excel, Word and email for starters).

Candidates who have experience in a private dining or special events capacity in addition to their fine dining experience will be given special consideration.

This is an ideal opportunity for a manager with small, independent restaurant background who wishes to round out his/her experience within a more structured environment where opportunities to learn about the business abound.

We are looking for individuals who:

- Demonstrate passion for great service
- Love developing relationships with guests and building community
- Are entrepreneurial but comfortable working within the structure of a larger organization
- Are excellent managers, teachers and leaders
- Are able to deliver profit to the organization

Fish Story offers a great work environment, competitive salary, achievable bonus, health, dental, and life insurance, paid vacation, sick leave, and dining discounts plus an excellent opportunity to grow with a growing company. EOE
